

SOYBEANS - CERTIFIED

IAS19C3

LICENSED VARIETY

IAS19C3 is new genetics out of Iowa State. IAS19C3 has strong emergence, early growth, excellent stainability all season long, outstanding yield performance, and competes with some of the best genetics on the market. It is a food grade soybean variety with yellow hilum and high seed protein. A license is required for production and distribution of IAS19C3.
