

WHEAT, WINTER – CERTIFIED & QA

KASKASKIA

LICENSED VARIETY

Kaskaskia is an awned white-chaffed, medium height, soft red winter wheat variety released by the University of Illinois Agricultural Experiment Station. Kaskaskia has high yields and test weight. Kaskaskia has very good winter hardiness. It is moderately resistant to soil-borne wheat mosaic virus and wheat spindle streak mosaic virus. Kaskaskia is resistant to some races of leaf rust. Kaskaskia has a moderate level of tolerance to head scab.

Kaskaskia is susceptible to stem rust, powdery mildew, biotypes B, C, D, E, GP and L of the Hessian fly. It has not been evaluated with other Hessian fly biotypes. Kaskaskia is easily distinguished from other soft red winter wheat varieties by a unique genetic response which involves the lengthwise twisting and curling of the flag leaves.

L-024

LICENSED VARIETY

L-024 is a medium-full maturity, awnless soft red winter wheat that is of medium stature with good standability. It boasts high yield potential and very high test weight. L-024 has very good resistance to leaf and stripe rust and carries LR34 gene for leaf rust. It has good to average resistance to Septoria and Fusarium head blight. Winter hardiness is excellent.

A license is required for production and distribution of L-024 Brand winter wheat seed.

SUNBURST

LICENSED VARIETY

Sunburst is a proprietary, high yielding soft red winter wheat released in 2008. Sunburst is widely adapted to the Eastern Corn Belt and is intended for the general-purpose wheat market. Sunburst has blue-green head color, an erect-twisted flag leaf, short height, excellent straw strength and is awnless. Sunburst has good winter hardiness, excellent test weight, high yield potential, good scab resistance and leaf stripe rust resistance.

Green stage variants include 0.05% yellow green tall, 0.05% yellow green awned, 0.35% yellow green, 0.5% tall awned, 0.1% tall, for a combined variant total of 1.05%.

Sunburst is a licensed variety protected under the U.S. Plant Variety Protection Act (PVPA 1994). Seed of Sunburst can legally be produced and labeled for sale only as certified seed by growers who are exclusively licensed through Central Ohio Seed Testing.
